### Product description

- Professional cordless lamp with MULTILED technology, 36W.
- Designed to cure all gel, acrylic-gel and hybrid products
- The lamp has 81 optimally placed diodes and four curing times, including a "low heat" mode.
- This is a progressive irradiation, which makes the power of the lamp increase gradually, and the burning sensation is minimized.
- The device is equipped with a motion sensor activated when a hand is inserted into the lamp, a removable pad and 4 adjustable feet.
- An additional advantage of the lamp is the 2 built-in rechargeable batteries. Maximally charged they work for up to 3 hours.
- MULTILED lamp is an excellent tool for professional salon manicure and pedicure services and mobile services.

### PRODUCT FEATURES:

- Power of the device: 35 W
- Curing time: 10s, 30s, 60s, 99s "low heat" progressive irradiation.
- Number of LEDs: 81 pcs.
- Power supply voltage: 100-240V 50/60Hz 12V
- Output voltage: 12V/3A
- Wavelength: 365nm (27 diodes); 405nm (54 diodes)
- Battery: 11.1V - 4400 mAh (48.84 Wh)
- Width: 210 mm
- Depth: 210 mm
- Height: 100 mm
