Manufacturer	<b>Victoria Vynn</b>

### Product description

#### High quality pigments with deep colors and thick consistency

- Plastic, easy to spread mass for curing in LED and UV lamps, without the need of mixing with other light cured products
- Full color coverage even after applying one thin layer
- Perfect for enhancing the color of gel products and hybrid polishes
- Designed for all kinds of decorations with varying degrees of difficulty: one stroke, zhostovo, micropainting, ornaments, landscapes, geometries, etc.
- Also ideal for thin and precise lines, contours, rubbing, shading .. etc.
- Pigments in a tube are a convenient form of use: we apply the required amount of mass only once, protecting the color from drying and hardening.

#### Contraindications

- bacterial diseases of the nail plate and skin
- allergies
- inflammatory and infectious changes
- ingrown and tube-like nails

#### Precautions

- do not use in case of hypersensitivity to any of the ingredients of the product
- keep away from children
- avoid contact with skin or eyes
- in case of adverse reactions (e.g. redness, itching or burning sensation), discontinue use of the product
