Shipping time	<b>48 hours</b>
Number	<b>331137</b>
Manufacturer	<b>Victoria Vynn</b>

### Product description

- **PEDIBASE** is a light-cured base dedicated to cosmetic pedicure.
- This is a unique product for permanent nail styling of the feet.
- Aligns the plate and gives a natural color.
- The base is resistant to mechanical damage,
- protects the toenails against breaking and cracking.
- It can be used under the classic iQ Nail Polish or hybrid Pure and Gel Polish.
- PEDIBASE styling finished only with a UV / LED top will leave a natural effect of a healthy, well-groomed nail plate.
- The consistency of the base allows a thin application as a primer, as well as evening out any imperfections of the plate.
- The product is available in two natural shades: milk and light pink.

### APPLICATION

- Apply a thin layer of the base on a previously prepared, degreased nail plate
- Cure in the LED lamp 60 s, in the UV lamp 120 s.
- If it is necessary to even out the natural tile, we can apply a larger amount of the base to correct any unevenness.
- After curing, rinse the base with a cotton pad soaked in Cleaner, and then apply the selected color and top.
- It is recommended to change the styling every 4 weeks.

### FEATURES

- For cosmetic pedicure
- Medium thick consistency
- Natural shades
- It has a dispersion layer
- For UV and LED lamps

### ADVANTAGES

- Resistant to damage
- Perfectly aligns the nail plate
- Large capacity
