Product description

DERMO INTENSE

MOISTURIZING ANTI-CALLUSATION CREAM 15% urea and collagen

RECOMMENDATIONS

- intensive cream for the care of very dry and rough skin of the feet, hands and body
- especially recommended for calloused skin of elbows, knees and heels
- also recommended for diabetics

ACTION

- intensively moisturizes
- improves skin elasticity
- has a positive effect on the process of hyperkeratosis of the epidermis
- has soothing and nourishing properties
- leaves the skin soft and delicate to the touch

250ml

HOW TO USE

- apply the cream to cleansed skin
- massage in and leave to absorb
- apply twice a day to excessively keratinized areas or once a day as a preventive measure
