### Product description

- Innovation in nail modeling !!! Available in 11 shades.
- combination of the advantages of acrylic and gel - gel flexibility, durability of acrylic
- extremely stable consistency, without self-leveling properties
- the possibility of modeling the plate by clamping the tunnel
- easy to process with a file, preferably 180/240 grit
- no dust builds up when sawing
- for UV and LE lamps
- minimized risk of baking in the lamp
- curing time: LED 30-90 s; UV up to 240 s - depending on the thickness of the applied mass and the type and power of the lamp
- efficiency: 30-50 styling (10 nails) - depending on the application and type of styling
- removed mechanically with a milling machine or a file
